(C) Any other asset that the bank holding company demonstrates to the satisfaction of the Board:

(1) Has low credit risk and low market risk;

(2) Is traded in an active secondary two-way market that has committed market makers and independent bona fide offers to buy and sell so that a price reasonably related to the last sales price or current bona fide competitive bid and offer quotations can be determined within one day and settled at that price within a reasonable time period conforming with trade custom; and

(3) Is a type of asset that investors historically have purchased in periods of financial market distress during which market liquidity has been impaired.
